PROFILE

Full-Stack Web Developer skilled in JavaScript, React.js, HTML, CSS, and REST APIs, with knowledge of backend logic, authentication, and databases. Experienced in building responsive web applications and using Git/GitHub for version control.

EDUCATION

B.Tech, Electronics and Telecommunication	2026
Priyadarshi JL College of Engineering	
HSC	2021
Prerna Junior College	
SSC	2019
Gayatri High School	

SKILLS

- HTML, CSS, Bootstrap
- JavaScript, React JS
- MySQL, Java
- Git, Github
- Node.js

PROJECTS

1. To-Do List Web Application

- Developed a responsive task management app using HTML, CSS, JavaScript, and Bootstrap.
- Implemented dynamic task creation and deletion with DOM manipulation and event handling.
- Designed an intuitive UI with styled buttons, checkboxes, and responsive layout.
- Practiced modular coding with arrays of objects to manage and render tasks efficiently.

2. Career Compass — Job Portal Web Application

- **User Authentication:** Implemented login and logout using JS-Cookie for storing authentication tokens and managing sessions.
- **Client-Side Routing:** Used React Router DOM for seamless navigation between pages like Login, Jobs, and Job Details.
- **Dynamic Job Listings:** Displayed multiple job cards with company name, role, and info fetched dynamically or structured in the app.
- **Component-Based Architecture:** Created reusable UI components (JobCard, Header, LoginForm, etc.) for modular and maintainable code.
- **Career Compass:** <https://career-compass-seven-phi.vercel.app/>
